Business Litigation

Sheehan Phinney Business Litigation Practice Group handles litigation matters for individual and corporate plaintiffs and defendants throughout New England and across the country, in the state and federal systems at the trial and appellate levels, in arbitration forums, and before agency and regulatory bodies at all levels of government.

Our philosophy is that proactive discovery produces favorable results for our clients - and as such, we prepare cases aggressively and try cases frequently. Sensitive to the costs of litigation and to the fact that some cases are better settled than litigated, however, we are also known for our considerable skills and successes in mediation, arbitration and alternative dispute resolution settings, and will not hesitate to pursue such avenues when warranted.

Our group handles a broad array of cases in most areas of law, including:

- Administrative Law
- Alternative Dispute Resolution
- Antitrust
- Appellate Litigation
