

SHEEHAN PHINNEY

Antitrust

In today's competitive business environment, businesses regularly confront challenges posed by both existing and new marketplace competitors. Sometimes, competitors cross a line, either by their own actions, or by accusing you of engaging in improper commercial activity. Meanwhile, as competition grows in the global economy, laws governing competition and competitive practices continue to develop and evolve.

Sheehan Phinney's Antitrust Litigation group counsels our clients on antitrust issues arising under state and federal antitrust laws, unfair trade practice statutes and through common law tortious interference claims. We will help you compete aggressively but lawfully and defend your business interests against the unlawful actions of your competitors.

We represent clients in all phases of civil litigation in federal and state courts, and in criminal antitrust investigations by federal and state agencies. We can also help your company conduct internal antitrust investigations and antitrust audits and compliance programs to help you keep abreast of the latest changes in this ever-evolving area of law.
